

Sayali H Dahake

Technical Product Manager

Bengaluru, India · +91 9370497557 · saylidahake1998@gmail.com · LinkedIn · **Portfolio**

Professional Summary

Technical Product Manager with 4+ years of experience building and scaling AI-driven and enterprise SaaS products across B2B and government domains. Led 10+ end-to-end product launches from discovery to post-release optimization, driving measurable improvements in workflow automation, compliance accuracy, and operational efficiency. Strong in product discovery, PRD creation, roadmap strategy, API-driven systems, Agile execution, and cross-functional leadership across engineering, ML, QA, and design teams.

Experience

Codemonk , Bengaluru
Product Manager

Sep 2022 - Present

Owned end-to-end product direction for AI and analytics platforms, translating business problems into scalable technology solutions.

- Owned product execution, roadmaps, and sprint delivery for 10+ large-scale software platforms across AI, sustainability, IoT, and government-backed requirements.
- Managed cross-functional teams of 8–10 members (Backend, Frontend, ML, QA, Design), ensuring alignment between technical implementation and committed delivery milestones.
- Converted BA handover documents and stakeholder inputs into detailed user stories, acceptance criteria, sprint plans, and release roadmaps.
- Owned backlog prioritization and sprint scope control, improving sprint predictability and reducing spillovers across release cycles.
- Conducted sprint planning, backlog refinement, daily stand-ups, reviews, and retrospectives to ensure structured Agile delivery.
- Tracked cross-team dependencies and proactively mitigated execution risks, reducing last-minute escalations and release uncertainty.
- Partnered with stakeholders to manage change requests, balancing scope adjustments with engineering feasibility and timeline constraints.
- Led release readiness activities including UAT coordination, defect triaging, production deployment tracking, and post-release issue stabilization.
- Established structured post-launch monitoring workflows to capture stakeholder feedback and support iterative enhancements.
- Contributed to PRD drafting and feature documentation to strengthen requirement clarity and reduce rework.
- **Key Projects:**
 - • AI-Driven Safety Compliance Platform • AI-Driven Music Metadata Enrichment Platform • AI-Based People & Vehicle Tracking Platform • Carbon Footprint Analytics Platform • Multi-Role Program Workflow Platform • Biotech Investor Portal (Govt-backed)

QA Engineer

Sep 2022 – Dec 2022

- Executed manual testing cycles across web platforms and supported release readiness.
- Reduced defect turnaround time through structured bug tracking and collaboration with developers

Kool Kanya Pvt. Ltd – Mumbai

QA Engineer

Jul 2021 – Sep 2022

- Managed QA cycles across Shopify, Thinkific, Ghost CMS, and Tribe platforms, and Created structured test documentation and improved regression coverage.
- Collaborated with content and marketing teams to ensure feature reliability during campaign rollouts.
